

# **C++ Assignments**

## **Binary Search Tree 2**

1. Given a BST, count subtrees in it whose nodes lie within a given range.

2. Given a BST and two keys in it. Find the distance between two nodes with given two keys. It may be assumed that both keys exist in BST.

**Note:-** Please try to invest time doing the assignments which are necessary to build a strong foundation. Do not directly Copy Paste using Google or ChatGPT. Please use your brain
